

Jenkins Notes

Step1 Download Jenkins war file .

step 2: Open cmd .

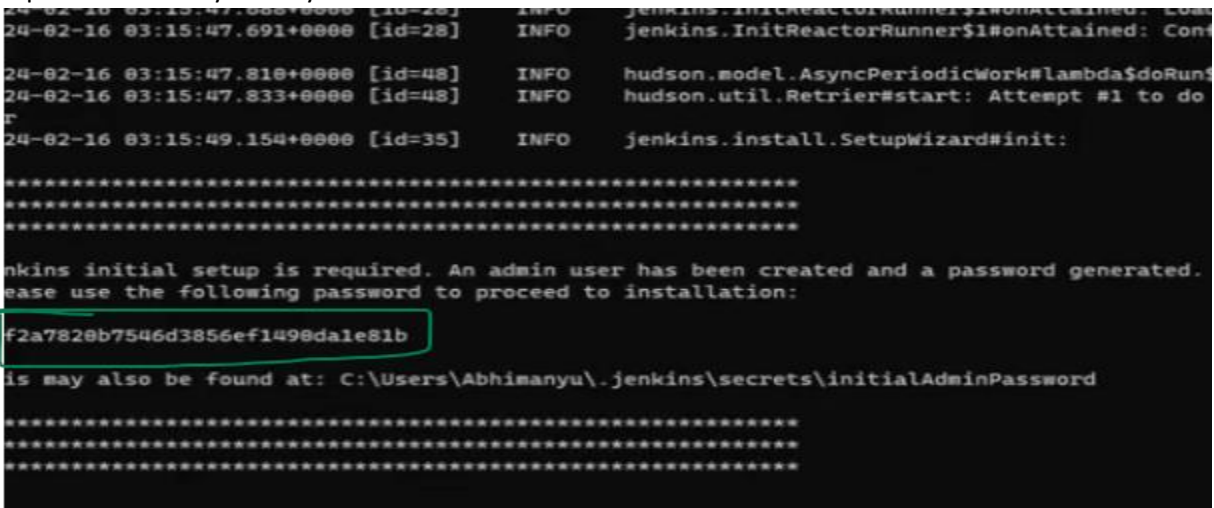

step 3 : write command on cmd

```
Administrator: Command Prompt
Microsoft Windows [Version 10.0.22621.3007]
(c) Microsoft Corporation. All rights reserved.

C:\Users\nikhi>java -jar "C:\Users\nikhi\Downloads\jenkins.war"
```

Step 4: save the key when you install Jenkins first time

```
24-02-16 03:15:47.688+0000 [id=28] INFO jenkins.InitReactorRunner$1#onAttained: Com
24-02-16 03:15:47.691+0000 [id=28] INFO jenkins.InitReactorRunner$1#onAttained: Conf
24-02-16 03:15:47.810+0000 [id=48] INFO hudson.model.AsyncPeriodicWork#lambda$doRun$
24-02-16 03:15:47.833+0000 [id=48] INFO hudson.util.Retrier#start: Attempt #1 to do
24-02-16 03:15:49.154+0000 [id=35] INFO jenkins.install.SetupWizard#init:

Jenkins initial setup is required. An admin user has been created and a password generated.
Please use the following password to proceed to installation:
f2a7820b7546d3856ef1490dale81b
This may also be found at: C:\Users\Abhimanyu\.jenkins\secrets\initialAdminPassword

```

Step5 : Go to the path and check key is available

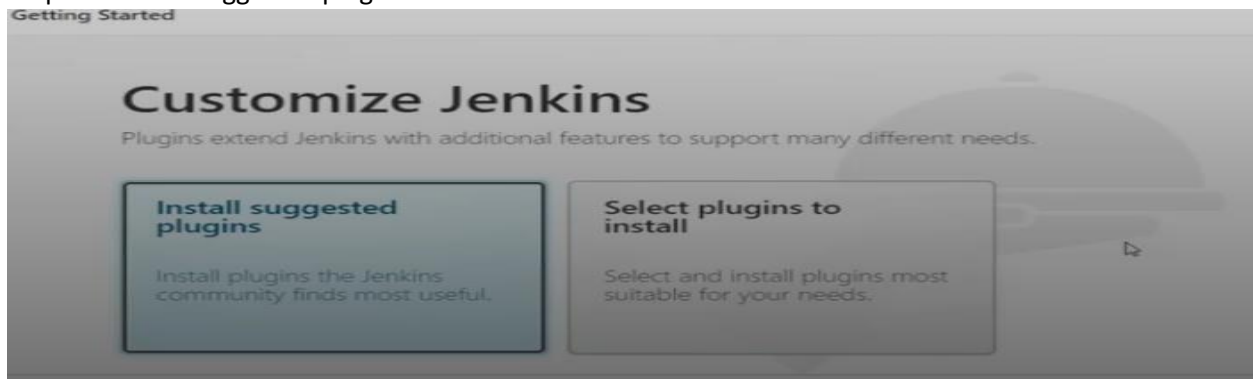

step6: Copy the link and paste on chrome browser

<https://localhost:8080/>

Step7 : paste the key and click on continue

Step 8: Click on suggested plugin

Step9: Click on continue

Step10: create user name and password

The image shows the 'Create First Admin User' form. The title is 'Create First Admin User'. There are four input fields: 'Username:', 'Password:', 'Confirm password:', and 'Full name:'. The 'Username:' field contains the text 'abhimaj'. The 'Password:' field has a tooltip showing 'abhimanyus036@gmail.com'. The 'Confirm password:' field is empty. The 'Full name:' field is empty. At the bottom of the form, there are two buttons: 'Skip and continue as admin' and 'Save and Continue'.

Step 11: save the local host url

Getting Started

Instance Configuration

Jenkins URL:

The Jenkins URL is used to provide the root URL for absolute links to various Jenkins resources. That means this value is required for proper operation of many Jenkins features including email notifications, PR status updates, and the BUILD_URL environment variable provided to build steps.

The proposed default value shown is **not saved yet** and is generated from the current request, if possible. The best practice is to set this value to the URL that users are expected to use. This will avoid confusion when sharing or viewing links.

Jenkins 2.346.2 Not now Save and Finish

Step 12 Dashboard is available

 **Jenkins**     abhimanyu.saini  log out
